INTERNATIONAL
SYMPOSIUM

A.P.P.A.C.

WELCOME ADDRESS

Dear Colleagues and Friends,

It is a great pleasure to invite you to the **3rd International Symposium of the Association of Psychology and Psychiatry of Adults and Children (A.P.P.A.C)** which will be organized on **28th of November, 2020**.

In these extremely critical days that we go through due to COVID-19, it is imperative to expand, reorient, and upgrade clinical practice and activities in all health care disciplines in Greece.

The main concern of our Organizing and Scientific Committees is that the **3rd International Symposium** to be considered as a new milestone of scientific development and inquiry that will contribute to the community knowledge and skills to maintain the prestige and quality of the services provided to our fellow human beings.

The Symposium will address topics that relate to infants and adults in outpatient and inpatient settings. Together we hope to create the conditions for a productive discussion and to draw conclusions that will enable us to practice our profession more safely.

We hope that this Symposium will meet your expectations and to provide up to date information in the context of treatment during the pandemic.

The success of the Symposium is based on your active involvement and valuable contribution.

The 3rd Symposium is dedicated to the memory of APPAC 's founder **Dr Ioannis Kouros**. His scientific vision establish a legacy for us to continue his work.

We are looking forward to your attendance.

On Behalf of the Organizing and Scientific Committee,

APPAC President
Dr. Anastasia Karkanis

Symposium Organizing Committee President
Fani Anatolitou

COMMITTEES

APPAC BOARD

PRESIDENT:	Karkanis A.
