PSOGI International Symposium on Advanced Ovarian Cancer

Causes, Symptoms and Treatments Multidisciplinary Approach

Welcome Address

Dear friends and colleagues,

It is a great pleasure for us to announce the organization of the **PSOGI International Symposium on Advanced Ovarian Cancer** which will be held in **Athens, Greece** on **April 11th-13th, 2019**.

Ovarian cancer remains the most lethal gynecological cancer worldwide. The cover stone of the management is extensive meticulous surgery and sustaining chemotherapy, on the other hand in the first three years after initial treatment 50-40% of the cases are recurrent do to chemoresistance, tumor biology and residual disease from inappropriate operation.

The PSOGI Symposium is a highly specialized symposium that promises a stimulating, multi-disciplinary program aimed at providing the latest ideas and information on management of health of patients suffering with ovarian cancer.

The scientific program of the PSOGI Symposium will be a stimulating combination of cutting edge scientific knowledge and practical advice. Eight sessions are planned covering diagnosis and pretreatment staging through follow-up. Evidence regarding cytoreductive surgery and perioperative chemotherapy will be presented and/or debated. After each session, audience participation will occur through voting on the proper answers to pertinent questions regarding best recommendations for patient management. A final draft concerning conclusions on diagnosis and treatment will be produced. Audience participation will be a key ingredient to the success of this event.

PSOGI Symposium is aimed at surgeons, gynecologist - oncologists, medical oncologists, clinicians, nurses, researchers, and allied health professionals.

The Symposium will feature the most distinguished and brightest experts from around the world, who will share their compelling analysis and valuable insights. Commentaries on rendered reports on several diagnostic and frequently controversial issues will be presented, in order to generate a fruitful discussion among the participants.

Our intention at the Symposium is to create an interactive symposium that will provide a forum for the exchange of ideas and experiences through a rigorous study, to spread and help the delegates to learn innovative care models, update methodologies and to assess the resulting outcomes from around the world. It will also create an opportunity to examine how fruitful collaborations can be struck between partners at local, national and international levels and to build systems that seamlessly provide care for the whole community, including people with complex care needs. The symposium will facilitate both scientific and human exchange.

We are looking forward to welcoming you to Athens!!!

Exhibition

Within the Symposium area there will be an exhibition of medical equipment and pharmaceutical products.

Presentations

Available visual equipment for all presentations will be through power point presentation. For power point use, your presence to the "technical reception desk" is required one hour prior to the time of your presentation in order to check the compatibility of your cd or usb stick and to copy the relevant files. Use of personal computers will not be feasible.

Athens Weather

Athens weather in April is packed with Mediterranean sunshine and temperatures around 20°C means you will enjoy superb conditions as you explore the ancient city.

Visa Regulations for Greece

Greece is a full European Union member and follows the Schengen Agreement provision and the subsequent EU legislation concerning short-term visas.

Visa regulations depend on your nationality and country of origin. Please contact your local Embassy/ Consulate for full and official instructions on the specific visa regulations and application procedures that apply to you. It is the responsibility of the participant to obtain a visa, if required. For further details please visit: <https://www.mfa.gr/en/visas/>

Currency

Greece's monetary unit is the Euro. No other currency is accepted and it is best to exchange dollars or other currency at a bank. The **exchange rates** are all the same throughout the country and you exchange money at a bank or official exchange shop where you will get the best running rates. Banks are open from 9:00 AM until 2:00 PM.

Insurance

We cannot accept responsibility for any personal loss, accidents or damages to participants and/or accompanying persons. Participants are strongly advised to obtain personal insurance to cover any eventuality that may occur during the Symposium.

The airport

The new award winning Athens International Airport, Eleftherios Venizelos, serves 83 international destinations. Its close proximity to the city center, 30 minutes by car and 40 minutes by train, makes Athens easily accessible.
